WALL PANELING

An integral aspect of this renovation involves incorporating wall paneling, specifically wall moldings designed to enhance the walls with a decorative and sophisticated touch. They will be juxtaposed with vintage and artistic decor sourced from Portugal, grounding the elegant touches and achieving a harmonious balance

EXTRAORDINARY FEATURE MIRRORS

Oversized mirrors play a dual role in amplifying and visually expanding the space, a particularly beneficial feature given the room's rectangular and elongated layout. Positioned above the fireplace, a substantial mirror will greet the users by reflecting the entire room. Incorporating vintage mirrors to create a feature wall not only adds a touch of beauty but also pays homage to the past, seamlessly blending historical elements with a contemporary aesthetic.

LIGHTING

Lighting holds a pivotal role in shaping the ambiance of the space. Striking a balance between modernity and elegance, the lighting scheme will feature fixtures with refined and sleek lines, opting for subdued tones rather than bold and extravagant colors. Beautiful floor lamps will serve both to enhance and delineate distinct areas within the room, while sophisticated modern sconces will contribute to the overall illumination, infusing a sense of contemporary style into the elegant setting.

FURNITURE ELEMENTS

organic armchairs

classic contemporary furniture

light-toned upholstery

curved modern forms

Organic armchairs and contemporary, modern furniture will grace the space, maintaining a light and muted color palette while emphasizing modernity through the incorporation of curves and round shapes. The furniture, acting as the primary focal point, will not only infuse elegance but also serve a functional purpose by delineating distinct zones, such as a welcoming lobby or casual chat space and seamlessly transform into a functional meeting or presentation room when needed.

ART & DECOR

The insertion of art and decor in this space is essential, considering it is the chancery room in the Portuguese embassy. The art selection will exclusively feature works from Portugal, showcasing sculptors and artists from the country. This curated collection not only adds a distinctive cultural touch but also serves as an ideal platform to introduce the public to Portuguese art and culture.

GREENERY

The infusion of greenery becomes a paramount element within this distinguished space. Introducing carefully selected plants and elegant trees serves not only to enhance the aesthetic appeal but also to seamlessly bring the tranquility of nature indoors. This intentional blend of art, decor, and green elements creates a harmonious atmosphere.
